

Traditio minor

Small and functional

This model is the smaller version of the Traditio Valve, having the same properties and functions. Traditio Minor is mostly used for shorter or thinner radiators, with fewer elements. Besides its shape, there aren't any more differences, meaning this valve fits perfectly in any modern heating system.

Traditio Minor is a great choice for those who want to add more style to their vintage or new cast iron radiator. It is suitable for every room and radiator.
